

Tour I: Activity #4 - Scope and Standards

Directions: Take some time to reflect on what you have learned; use additional paper as needed to complete the activities.

- Identify a population-based initiative in Health People 2010.
- Use online resources to identify implementation plans for the selected initiative.
- Identify how this population-based initiative could affect the community in which you work.
- Identify gaps in the population-based initiative that need to be addressed in the future.
